

# Dr Gordon O'Neill

**Dr Gordon O'Neill** has been treating genitourinary cancers for over twenty years and offers a comprehensive range of services. He is fully accredited robotic surgeon, specialising in robotic nerve sparing radical prostatectomy, laparoscopic and robotic kidney surgery, as well as brachytherapy for prostate cancer.

Dr O'Neill graduated from the University of NSW in 1987, and was awarded The Travelling Fellowship at The Institute of Urology in London in reconstructive surgery in 1996.

He has been a Visiting Medical Officer in Urology at St Vincent's Campus and Dubbo since 1997, and has a special interest in the latest advances in urological oncology. He also has extensive experience in minimally invasive treatments for benign prostatic hyperplasia (BPH), including laser prostatectomy and The Urolift Device. Dr O'Neill's other interests include the management of complex renal calculi and female urology.
